ISSUE:

ZT-2-2010 - Enforcement Ordinance Text Change (Sections 7-20, and 7-28-106)

SYNOPSIS:

Staff is proposing a text change to reflect the creation of the Community Preservation Department in 2008. This text change will help clarify some departmental roles in enforcement of the Title 7 sections.

BACKGROUND:

Upon creation of the Community Preservation Department, the Code Enforcement Division was moved from the Community and Economic Development Department to the Community Preservation Department (CPD). Title 7 of the West Valley City Land Use and Management Act has ordinances related to enforcement. As Code Enforcement is no longer in the CED Department, staff is proposing a text change to include CPD as authorized to enforce Title 7 provisions.

This text change shall not affect CED's ability to enforce building codes through its building inspectors.

RECOMMENDATION:

Staff suggests the approval of the proposed text change.
